

Fact Sheet (2021 – I)

Healthcare Industries Cluster Berlin-Brandenburg – HealthCapital

The German capital region is one of the world's leading locations for the healthcare industry, healthcare, and the life sciences. Leading global companies, renowned scientists, first-class hospitals, innovative start-ups, and specialists from all over the world work together in Berlin-Brandenburg each day to deliver the very best goods and services for the regional and global healthcare markets. The unique research and clinic landscape, which is the region's major strength, is supported by a close network of key players from industry, start-ups, finance, clinics and politics.

At the interface to the IT industry, the capital region offers the best conditions for the development and application of digital health solutions.

For medical care and rehabilitation or nursing care – patients of all ages will benefit from capable, highly networked medical care at the highest level.

The HealthCapital cluster management drives networking and the technology transfer in the region and supports international companies interested in relocating to the German capital region. Berlin Partner for Business and Technology and the Economic Development Agency Brandenburg (WFBB) are responsible for managing the cluster. Peter Albiez, country manager of Pfizer Germany, is the cluster spokesperson.
